

Discipline and Selection

Clause 19 of our Bylaws and Division 2 of our Constitution give responsibility for disciplinary matters to the Committee of the Moonee Valley Cricket Club.

Captains have the authority to overlook a player for one match for disciplinary reasons, but may not continue to do so without Committee endorsement.

If a player is not being considered for selection on merit or form in the highest grade for which they wish to be available, they are entitled to know the reasons.

If there is a real or perceived issue between the player and the captain of a team, the Committee will facilitate a meeting between the two, and a member of the Committee will participate.

It is important that merit and form are the primary factors governing selection, and that a process is in place to resolve any differences between players, or between players and captains.
